

Urbana, 27 January, 1923

Dear Mr. Drake: -

Renewed thanks for your kindness in answering the last batch of questions. I am writing you a card without any queries! The information you sent was just what I desired, and now my ~~problems~~ ^{and hypotheses} are getting very much reduced. My introduction is all written ^{and typewritten} save the section on the geology by Professor Cady, and most of the remaining difficulties I can settle (so far as I shall try to) in the library here. If a few specimens should not be included (as would at any time be likely to be the case) they must take their risk, and not keep all the rest of the work waiting. About the publication I am going to try the B.S.N.H. Glover Allen has two or three times written me about the matter, and while the Society could not naturally make no promises before seeing the ms. he yet feels that it would be much interested in considering it. - I expect my mother here next Tuesday for a good visit. All else is well here. With all best regards,
A.S.P.

THIS SIDE OF CARD IS FOR ADDRESS
