

Ankner, 26 Sept., 1924

Just a line, O Miller Dear, to say that we are getting nicely
established here and to answer your letter. I'm sorry that I cannot
attend the first meeting of the Club, but I hope to be at some later ones
this year. The country here is beautiful and we have diversified our
unpacking and settling with some lovely drives. I have renewed my ac-
quaintance with such old friends as Polygonum virginianum, Collinsia
canadensis, etc., and I may pick up a few new ones. Though it is now
getting rather late in the season. We like our house and garden very
much, and I wish you could see the grounds in their present beauty. The
flower garden is still very gay. The cottage stands well and I like my
work and my students. I have met Professor Goodale pleasantly several
times and he has invited me to look at the herbarium, which I haven't yet
had time to do. With all best wishes,

A. S. P.
