

Thistle & mad ash

A. Macrophyllum

[Sent Oct 25 recd Nov 1. 1911. from
Mr. W. J. Plummer, Lake Co. Cal. Washington]

Busy just now but I'll write you again some day.
These leaves are from young & thrifty trees & are about as large
as they can get. I don't know if I told you but I make a few gallons of syrup
from the sap of the *Macrophyllum* every year. As far as I know I am the only
"manufacturer" in the state. Had a letter of inquiry regarding it from the Director
of the Census last week.
