Nov. 2, 1876.

Dear Mr. Sargent.

Many thanks for  
your favors; Your notes  
will appear in the Bulletin.  
Very little time have I at present  
for botany, but the other week  
in walking with a friend through  
a piece of waste ground, I  
noticed a pretty rosette of leaves  
down among the grasses and weeds  
and was delighted to find it  
our Serbian minor, which does  
not seem to grow with you.  
It occurred to me that if  
you remembered where you  
gathered the fine specimens of  
*S. intermedia*, so called, and

had leisure you might  
now find them with the  
rest leaves of which I  
am very much in want.  
Would you like to have a  
set of the Serbens which  
I have thus far determined,  
but have not yet ascertained  
wholly the proper names?

Yours truly,

Am. N. S. S. S.
