

13 May 1908.

Dear Prof. Collins,

By all means use part of my material of Sph. Faxonii in order to make up a good specimen for Dr. Parlow. I am surprised that he has not found some of the original material in his own herbarium, for I understand from Mr. Chas. Faxon that nearly everything was collected in duplicate and that Dr.

divide with you when I get it.

Yours sincerely,
J. B. B.

Perkins &
Cant.

Farlow has a very complete set.

I made the translation of the description in Hedwigia for Warnstorf & have since offered to find out the type locality if possible by finding other specimens collected on the same date.

By the way, Bush promises me material of Sph. missouriensis from the type locality. If you have no material of the original collection see

Bartlett, Harley Harris. 1908. "Bartlett, Harley H. May 13, 1908." *James Franklin Collins correspondence*
