

Bethesda, Md.

16 Dec. 1910.

Dear Prof. Collins;

I have a few odds & ends of mosses which I shall send you soon if you want them (including perhaps a few Polytricha & Catharinaeae) In the case of my own numbers there will be no necessity for determinations until you get around to it, but there are a few sent me from Ohio State Univ. (under the mistaken impression that I could determine them) which I wish you could look over. If you really haven't the time,

do you think Nichols  
would like them?

Would you care to  
contribute any sets of 50  
specimens of Sphagnum in  
return for a set of  
Eysenckiae? Have you  
ever distributed duplicates  
of any of the Sphagna  
which Warnstorf determined  
for you?

With best regards, I  
am,  
Yours sincerely,  
J.H.B.
