

HERBARIUM OF J. R. CHURCHILL
NO. 32 PERCIVAL STREET, DORCHESTER, MASS.

Sept. 9

1904

My dear Collins

It was very kind of
you to send me the R. I.
Scrophulariaceae, but why
did you include the ten
sheets of unnamed Botryc-
inid from Maine? Mr.
Deane happened to be at my
house last night, and we
concluded that you got them
by mistake into the wrong
package intending to send
them for identification to some
one - perhaps A. A. Eaton or
Mr. Davenport? Deane & I
found several of the old species
there & probably some of the
new ones, as now considered at
any rate - I think one is

Eaton's B. tenebrosus, so
called, which I collected in
1902 at Memphisagag in Can-
ada - Can I forward them
for you to some one "in author-
ity" or shall I simply keep them
with the "Scoops" as you sug-
gest, until next Club meeting?

I was glad to find the Phryna
from R. I. evidently indigenous -
& it filled the gap in that column.
I have not yet had time to ex-
amine the others carefully -
though Verbasum bychnitis
is all right, tho' a "waiter".

Thank you again for
your trouble & attention

I remain your
sincerely J. W. Churchill
