

Providence Dec. 30, 1894

My Dear Mr. Deane.

Your letter and duplicate book came to hand a few days ago.

I find a goodly number of desirable species ~~in the list~~ and enclose a list of 28, from which I hope you may select 14 New England specimens, as I do not care for them from elsewhere, except in the cases of

Saxifraga argyrocarpa and *Asplenium nidus*, and these I prefer from N.E. but will be glad to get them from any where. Those marked (*) are especially desired. If you

cannot supply 14 of the species from N.E. please inform me by card and I will send an additional list.

Please take your own time about making up the package as I am in no hurry. Wait until you have finished your Western exchanges if you wish. I shall find plenty left I am sure.

I live in hopes of visiting my distant
~~native~~ ~~on C. J. Gall~~ ~~in~~ locality again
next summer. I want to find the
print too.

Shall keep an eye open
for the Abyssinian ~~with~~

Have your catia ready to return
but may not be able to get it off
with this letter.

In haste but cordially
J. F. C.

(Dec. 30, 1894)
