

I have constantly from
W.M.B. as does E. F. Ward.
Our fame is spread in the
Fall River News & Press
Journal !!!

Sincerely
W. Deane.

29 Brewster Street
Cambridge Mass.

Oct. 25 - 1892.

Dear brother Collins,

I want to ask you
about the advisability of
making Prof. L. F. Ward a
non-Resident member of our
Club. I appreciate the
pros & cons. Ward has been
a paleobotanist of high
repute & is widely known
or such. When he was
in Washington he was

much interested in the Flora of
his region and published
the Flora of Washington.
I have known him well
for many years, both him
& Mrs. Ward.

Now he has come to
New England, but his
active interest in botany
has gone and he has
never had any special
interest in the flora
of New England.
There is the situation.

This claim seems to be that
he is now a New England man
and he has been a widely known
botanist, but no longer seems to
have any interest. His factory
has absorbed everything.

What do you think?

I have heard of your 2^d trip to

Canada and I am assuming to
make it that ~~Myriophyllum~~ *Myriophyllum* *Scaberrimum*
in place of the water - and work.

Deane, Walter. 1907. "Deane, Walter Oct. 25, 1907." *James Franklin Collins correspondence*
