

67 Mansfield Street,
SHEFFIELD SCIENTIFIC SCHOOL OF YALE UNIVERSITY.

New Haven, Connecticut, January 22, 1907.

Dear Professor Collins:

The package of hepatics came yesterday and I am very much obliged to you for sending them. I enclose a list of my determinations by number. Some of the Canadian specimens are a little mixed, but I think that my list includes every species represented. I was glad to see the Rhode Island specimen of *Grimaldia fragrans* because I had never seen it from your state, although it is included in Bennett's catalogue. I am just finishing a paper on New England Hepaticae for *Rhodora* and will include a note about the plant. If you come across more hepatics in your collections I should be very glad indeed to study them.

Sincerely yours,

Alexander W. Evans.
