

Winona, Minn., Nov. 5, 1895.

Dear Sir: Your letter with enclosure for \$3.00 is received. You will find no set of exsiccata in which all numbers are fruiting specimens. Leaves in mosses are generally characteristic, as you know, and where they are not, as in *Webera*, *Orthotrichum* etc. fruiting specimens only are given. - I will write Mr. Cardot about your wish.

I am working out myself a series of *Minerota* Exsiccata, in 10-12 sets, six of which only will be sold. The first fascicle of 1-50 is soon ready. Do you want a set? at \$3.00 a fascicle.

Cordially yours,

J. W. Holzinger.

POSTAL CARD - ONE CENT.
