MASTER OF NATURAL SCIENCE

.....December 22.....1908.

Dear Mr. Collins:-

Thank you very much for your kind note. By all means wait until your other applicant has examined the lichens. In fact I think it would be well to wait until, perhaps, Dec. 30, before sending me the specimens as the mails and express are so crowded and dandorous at this busy Christmas season. I can wait perfectly well for a few days, in a study of years, makes little difference.

Can you tell me where Mr. Bennett's plants went? Yes, I shall be glad to see examples from Gaspé, in fact from anywhere.

With many thanks

Sincerely yours,

R. Heber Howe, Junior
