

of the *P. truncata* from
the college yard of
which you invited
me to partake
when looking over the
bundle. I shall hope
to find more Seashore
~~Potteras~~: several of the
genus in England show
a preference for the
shore. My kind
regards to your father
& mother & I trust
your health continues
to improve.

Truly yours

P.S. Govt. Kennedy
The bundle is sent to you,
Express paid, I thought the
Herbarium perhaps's not ready for it.

Rosedale Mass
5 March 99

Dear Mr. Collins,
I thank you for your
card of a few days ago
offering to draw anything
you find and for the
new *Potteria*: I have been
much interested in the
plant for it is plainly
a new species & I have
worked out pretty
carefully all the parts
of flowers & fruit &
have made several
slides. I have given
the ms. description
to Dr. Robinson &
Mr. Taxon is going to
make a plate for it.

So it will have a
good send off -
Probably it will
appear in the May
no, as the April no.
is already ready.
I have called it
Potter Randia; you
shall have a bit
a little later, but I
have returned all the
material to Mr Rand
except the pieces he
gave me first, but
he says he can get
plenty of it next
summer.

You will be surprised
to hear of our sudden

Grip Southwards: Mrs.
Kennedy my daughter
& I go tomorrow to
New York & then to
Washington & some
point farther south
perhaps Camden in
South Carolina:
we shall stay away
through this month
& perhaps I shall
bring back some
Pleuroidia & Brachia
et la omnia genera.
I shall try & send
you a word now
& then of my wander-
ings. I thank you
also for the specimen

Kennedy, George G. 1899. "Kennedy, George G. Mar. 5, 1899." *James Franklin Collins correspondence*
