

Readville Mass.

2 May. 1901.

Dear Collins

I expect to be allowed to
be up today and yet I shall not
be able to use my eyes and it
is best that I answer your letter
in this way by the hand of my son.

As to the *Atrichum Leiophyllum*
I agree with you that it would
be a good plan to mention it
and tell how it differs or any
other remarks you wish to make
on it - and the same about the
minimum - I think you had better
omit the *Hypnum Euxyrium*
from the list -

I named the *Melichhoferia*
after studying Dixon and

Comparing it with a specimen I had
of Husnot 331 and also Number 509
Austin Musci Appal. Supplement I.
Where it is given as
M. Compacta = *Bryum Compactum*
Bot. Gaz. vol II p. 111 et habitat
Alpine Regions of White Mountains - Common.

I never found it at the White Mts.
but Austin's specimen is I think surely
our Katarou Moss.

I return you (19) Nineteen Drawings.
All I had I think. As I am
up stairs in my bedroom it
may be that I have one other
letter with drawings in it down stairs.
Which if I have shall be returned to you.
I am extremely sorry not to be able
to see you tomorrow.

Very truly yours
George G. Kennedy
per H.K.

Kennedy, George G. 1901. "Kennedy, George G. May 1901." *James Franklin Collins correspondence*
