

Readville Mass

Jan 27. 1902

Dear Collins:

The *Sarracenia* photo came & the young lady insisted on paying the 30 cents: she said that was the price unmounted & she got 35 for her mounted ones. So I enclose 15 2ct stamps for you & you have also the cordial thanks of the young woman. I came home yesterday morning by night train from Burlington Vt with Dr Robinson, he went to deliver the annual address to the Vt. Bot. Club & I went as a member of the said Club, which by the way he is now.

The weather was superb clear as a bell & then.

fr 18° - 22° , no melting of snow anywhere
We are back before the approaching cold snap & have
only pleasant recollections of our stay. They have
a very small moss collection there & no one
who is particularly interested in Mosses, but
the Science Building (Williams Hall) is quite
modern & well built with good laboratory.
The College Library 65000 vols is in the "Billings"
Building designed by ~~James~~ Richardson who did
Trinity Church in Boston and is considered one
of his masterpieces. There is some delightful
scenery abt Burlington with the Lake on one
side & Mansfield rather mountainous on the
Eastern horizon.

very truly yours

Geo. G. Kennedy

Kennedy, George G. 1902. "Kennedy, George G. Jan. 27, 1902." *James Franklin Collins correspondence*
