

Readville, Mass.

17 March 1905

Dear Collins

many thanks for  
the beautiful mosses  
I rec'd last evening:  
what noble specimens  
of *Paludella squarrosa*  
& *Hymenostylium curvi-*  
*rostratum*: the latter is  
one of my favorite  
Melloughly mosses &  
often fruits there.

*Hypnum scorpioides*  
also fruits at Melloughly.  
Shall I ever live  
to collect *Splachnum*  
*ampullaceum*? I  
have often searched  
for it.

I expect to have another box of papers to send  
you early next week.

Sincerely yrs

Geo L Kennedy
