

Readville, Mass.

27 May 1912

Dear Collins

I am delighted to have your Key to Trees: it is a very attractive looking book, and that, in itself, is no bad feature of any book. I shall use it I assure you & when you are some day here I hope you will put your autograph in the volume. I thank you most heartily.

I suppose you may even now be

off, to some part of your work in the woods,  
and hope you will have a useful happy  
Summer. I went on the Greenfield trip  
with Williams & Batchelder & we  
explored Green River up to the Vermont  
line: the plants were similar to those  
of many Vermont valleys. I shall not  
be able to go on May 30th with the Club to  
Worcester. I have lately had a few  
excursions or walks in this vicinity with  
the Taxons, & hope we may get more.

Please remember me to your father &  
mother & believe me sincerely yours

Geo<sup>g</sup> Kennedy.

P.S. just now comes  
also the Chestnut Bark  
disease address at  
Almira for which also  
my thanks. E.G.K.

Kennedy, George G. 1912. "Kennedy, George G. May 27, 1912." *James Franklin Collins correspondence*
