

The *Chiloscyphus* which I offered last Sept. turned out to be *C. polyanthus* instead of *C. pallescens*. Since then I have found the true *pallescens* so I have sent you both varieties. They look very similar when sterile. Dr. Evans has examined duplicates of both specimens.

Reading Mass. Dec. 31, 1908.

My dear Mr. Collins.

Enclosed you will find the hepaticas as requested. I am rather short of material in some cases as I cannot send you quite as good specimens as I would like to send.

If you have any hepaticas to exchange I should be very glad to exchange with you. I enclose my duplicate list and would be glad to receive your list. Most of my specimens were collected the past season in Eastern Massachusetts and have been examined by Dr. Evans or Miss C. C. Haynes.

Yours truly.

C. C. Kingman.

11 Woburn St.

Reading. Mass.

Kingman, Chester Cole. 1908. "Kingman, Chester C. Dec. 31, 1908." *James Franklin Collins correspondence*
