If you could make contributions
(n. carb. ?!) to sending Penn
tables if you don't have Conell
or Murville tables or
Plain county tables.
Then you gather them and work so many when passed!

This is very likely not just like my former
estimate but I have had a recent and ad-
justed count lately. I have left one so as to fill
gaps and these gaps I can not yet add to
fill. It is, as I understand says, the duplicate. But
make it, have to estimate greatly. They seem so few
when you gather them and work so many when passed!
