

*polytrichum
commune
(form)*

Wadsworth 9,
Cambridge, Mass.
April 28, 1915.

my dear Prof. Collins,
Enclosed
are some mosses which I
was asked to identify. They
are out of my province, so
I venture to send them to
you.

They were sent from Hatley
P.Q. by a correspondent of
Dr C.W. Townsend's, where they

were growing in a near
by the nest of a Horned
Lark. It is, I believe, because
of this relation that the man
wishes to know the 'identity
of the plant.

If the material is in
recognizable condition I
shall be very much obliged
if you can send me its name.

Yours sincerely,
Harold St. John.

St. John, Harold. 1915. "St. John, Harold Apr. 28, 1915." *James Franklin Collins correspondence*
