

October 3<sup>rd</sup> 1905

My dear Prof. Collins

If I have already  
sent you a receipt - & the July Bryologist  
(which I am mailing this eve -) please  
pardon my lack of memory - I failed  
to make any note of what I did & as  
the letter came on the day of my leaving  
for Cincinnati, Ohio - and only now  
have I time to "rid up" my desk -  
consequently I am doing my best to  
make things even -

In this morning's mail I find  
one of the promised articles from your  
pen - Thank you for it - & don't forget -

2

the octus as dry take shape + materialize - I am especially anxious for everything on masses, lichens seem lately to be crowding them to the background - Don't return any possible extra copies of the Bryologist - we think as you see fit - for the general good of the subject -

Very Truly

Annie Howell Smith
