

Boston Nov. 15. 99

My dear Mr. Collins

Ever since my visit to the
Brown University herbarium
I have been worrying over
two sheets of *Fraxinus viridis*
collected one by Olney at
Cumberland R. I. Sept 27. 54
& the other at Smithfield
without date. There are
other loose & unnamed
specimens & I should be
ever so much obliged to
you if you would get

together this material &
let me see it again. I will
gladly pay the express
both ways & name it
for you into the bargain
if you will do this for
me.

When I looked at the
Frayn's I knew less
about it than I do now
& I want to see it again
very much.

It would be best to
send it to my office

42 Franklin Street & all take good
care of it.

Hoping I am not asking something
which will inconvenience you

Very truly
Yours
Smith & Williams
