

With plant-list
for Jan - Nov. 1851

P.S. March 15th Maj. G. talks of sending Dr. Purry
home - probably to assist in some way in bringing
out the Botanical report in anticipation of any
counterplotting by Bartlett Chamberlaine But this is
I believe a kind of secret or a matter not fully decided
on The Dr. has just returned from a trip to the Gila in
quest of the Commissioners He picked upon the route
some very pretty things though somewhat scrappy C.W.

P.S. I enclose a little Graphalea the largest specimen I
have found - growing in stone mns Ap 15th Please give me the
name No 134 C.W.

Wright, Charles. 1851. "Wright, Charles Dec. 1851." *Charles Wright correspondence with Asa Gray*
