

Townsend & Co.

Santiago de Cuba Oct 17/59

Dear Dr.

I came here this morning and my principal business being to get money I spoke to two or three of the principal houses on the subject. The result is that now it is impossible to get any money on that "letter of credit" or whatever it may be called. So I send it back to you. One firm objects to its age - now nearly a year from date. Another says the firm of "Morrison Bros" has been changed. Moreover it appears to be not a letter of credit but a recommendation to the firm, a solicitation thus they aid me in getting money. True I got some by means of its counterpart before. But then is a "crisis", now in Havana & every body here is afraid of every body there. Mr Bradford generously relieved my present necessities by voluntarily offering to supply me with what I need - so I took two doubloons gratefully. And now my future movements must depend upon your promptitude in sending me means of travel.

One gentleman advises me that you deposit with some house in Boston which has business connections with some house in this city not Havana any sum you think necessary (I would say not over \$200.00) subject to my order here. I don't know any better plan - if you do adopt it. You will have to hunt up this business

connection too far I can't. Sales Marforroll & Co  
are winding up & from the observation gone of the  
house of Brooks & Co. I infer that they don't want  
to transact such small matter, or for some other  
reason don't want to act in this manner.

I suppose by means of your friends in Boston  
you can find some house there which has some  
direct pecuniary connection with some house in  
this city & if so nothing seems to me easier  
than to supply me with money in this way. But  
I am not at all particular and any way  
will serve me so I get the money. I ought  
to have attended to this business before my  
funds had run so low but is is now too late to  
retrieve this neglect. You will get this probably  
early next month if not before. I ought to be  
able to have the business well arranged by the  
end of it. That will do.

I am informed that the Brother had a quick  
passage to N. Y. This is some satisfaction but  
it don't quite relieve my anxiety about my  
plants for I think I remember seeing a hole in  
the head of one of the hogheads. If that hole were  
low & heavy seas were shipped injury to the plants  
might well result. I hope you are enjoying  
more quiet & comfort about them than I am  
I shall in future adopt a different plan & send  
them off in smaller parcels as I collect them  
of such dimensions that they can be boxed - if  
I can find boxes to put them in

I consulted Mr. Bradford as to the best time  
& place to botanize in the prairie region. Now  
he gives Jan. & Feb. as the best time & the Holguin  
region as the place. I shall want some paper  
shipped but I hardly know yet where to have it  
sent. I think I shall have enough left here to  
keep me busy some time whatever I may go till  
I can order more sent on. Between now & Jan. 2  
shall take a peep or two in Loma del Galo &  
Nimanimba & then be ready to go to Puerto Principe  
or such other place as may appear more  
convenient to the prairie country - Meantime  
do your best to get me out of the breaker, into  
deep water & oblige

Your truly  
Chas J. Wrights

P. S. I had nearly forgotten to say that the firm of  
Bresler & Gerardy have dissolved partnership. Please  
write to me under cover to George Bradford Esq.
