Mr. P. C. Manning,

My dear Sir:

We have not in our Library a copy of the 1<sup>st</sup> vol. of the Proceedings of the Portland Socy. containing Dr. Goodale's valuable list of Maine Plants giving the stations where found. It is of course very important that we should have this at hand. If there are any left we should be very glad to get a copy. and of course are ready to pay whatever charges you may wish - or to give the Socy. an equivalent in other books which we may have in duplicate.

Will you please attend to this as soon as may be as Dr. Robinson wishes to make a reference to the work in his
