*Razornife*  
REFILLABLE

The Razornife is a knife handle into which a safety razor blade is inserted. Blade can be pulled out and a new one forced in. Put up in glassine envelopes.

Space on handle of Razornife allows for 3 lines of lettering on both sides. 12 or 13 letters and spaces to a line, lettering  $\frac{5}{8}$ " high.

To imprint 100 to 1000 with trade mark or ad in plain lettering would cost \$5.00 for one side and \$10.00 for both sides.

No charge is made for steel imprint die if only plain lettering is used.

"One example is worth a thousand arguments."  
HERE'S A DOZEN.

# Razornife

REFILLABLE

Safety Razor blades are used for many purposes, but they get rusty, are easily lost, and sometimes cause nasty little cuts, for they are hard to handle.

The "Razornife" eliminates these disadvantages by combining in a handy pocket knife all the useful features of a razor blade. In fact they are doubly handy because most any razor blade will make a new "Razornife".
