Professor M. L. Fernald  
Gray Herbarium  
Cambridge, Massachusetts  
Dear Fernald;

A few months ago when you were in Providence you inquired, perhaps casually, about my diary covering some of our trips. I do not know exactly what you had in mind but since I moved down here it has occurred to me that you might have been inquiring about the possibility of getting copies of some of our trips together as shown in my diary. Until recently I have not been in position to make copies or to have copies made but now am able to do so if you care for them. Not necessarily, however, very promptly.

If you would like ~~copies~~ copies of any of the trips please let me know and I will get them under way. My records, of course, are largely an itinerary and not records of specimens found. I have in mind particularly the Mount Bigelow trip of 1896, and the Gaspe trips of 1904, 1905, 1906, 1907, and 1923.

I am pleasantly located here and hope to  
"catch up" on some long delayed matters. Best  
regards to all the Herbarium Staff.

Sincerely,

Collins
