Dr. Paul C. Standley,  
Field Museum of Natural History,  
Chicago, Ill.

Dear Dr. Standley;

Under separate cover

I am sending to you two specimens  
of non orchidaceous plants from Peru  
which I lately found <sup>among the Field Museum loan</sup> while working  
on the orchids of that country. One  
of these numbers was represented  
only by alcoholic material which,  
being kept pliable by a mixture  
of alcohol and glycerine, I enclos-  
ed in filter-paper in a pocket.

We have not <sup>yet</sup> received any  
photographs of Peruvian & other  
orchids made at Berlin by <sup>D.</sup> Mac-  
bride. I have been expecting these,  
as you said in a letter of June 6,

1932," I am writing to him (Mac-  
bride) to ask that he send on the  
negatives you wish, or else send  
you prints of them directly from  
Berlin, where he can have them  
made quite easily; I am sure."

It would be convenient to have  
these, as I am now in a position  
to describe the new species and  
make keys.

Yours sincerely

C.S.

Assistant to Prof. Oakes Ames

On inquiring <sup>at</sup> from the Gray Her-  
barium, I learn that they do  
not remember to have received  
any orchid photographs among  
the vast number sent by  
Macbride.
