

Springside,  
Middlebury, Vermont. April 26th, 1904.

My dear Doctor Kennedy:-

I have received your letter of April 22d and the four specimens of *Calamagrostis*. I presume your determinations, endorsed by Mr. Fernald, will stand, but the specimens collected by Professor Jones, and labeled *C. in expansa*, were so determined by Mr. Scribner at Washington. The question does not affect our present list, which is of additions to the Vermont Flora, and not of corrections. Var. elongata is an addition, and I thank you for the information regarding Mr. Faxon's specimens.

I have not heard from you regarding the three Fern-allies, but must send the manuscript today; if they should go in, they can be inserted later.

Yours sincerely,

Ezra Brainerd.

Brainerd, Ezra. 1904. "Brainerd, Ezra 26 Apr 1904." *George Golding Kennedy correspondence*
