DEPARTMENT OF BOTANY

Jan. 27th, 1896. 189

Dr . George G. Kennedy,

Dear Doctor,

Have your Roman le-

gions marched forth to battle with the s torms of the New England winters this year ? Is Buxbaumia as abundant in the locality where you found it last year ? If it is, will you send me some more ? I want to have it photographed, as a n experiment, and I want to send some to Willaim Hamilton Gibson, whose charming books you must be familiar with. The last one especially, on the edible fungi is perfectly delightful. I want to initiate him into some of the beautif~~ies~~ of the Mosses, and see if he wont make some pretty pictures for us of them. I shall be much obliged to you if you can help me in this matter.

Very sincerely yours,

Elizabeth G. Britton.

Britton, Elizabeth G. 1896. "Britton, Elizabeth G. 27 Jan 1896." *George Golding Kennedy correspondence*
