

New York, Feb. 6th, 1896.

Dear Doctor Kennedy,

Dear Sir,

Many thanks for your kind

letter of the 30th of Jan. which promises to send Buxbaumia again to me, if you find it fresh, and also asks if we want any Tetraplodon angustatus. Yes, we can make good use of it, and shall be glad to have some for our correspondents, and special students. Yes, I have written to W.H.Gibson, asking him if he wont try his wonderful pencil on the mosses, and telling him how much we have all enjoyed his book on the fungi, as well as "Sharp eyes", and others. The next number of the Observer will contain an article on Buxbaumia and Diphyscium, which perhaps you may recognize under the title of "The Hump-backed elves" I shall send a copy to W.H.Gibson, and shall be delighted if at the same time you can send me some of the plants to go with it. I distributed all that you sent me last year. With many thanks for the Tetraplodon,

sincerely yours,

Elizabeth G. Britton.

Britton, Elizabeth G. 1896. "Britton, Elizabeth G. 6 Feb 1896." *George Golding Kennedy correspondence*
