

New York Botanical Garden,
Bronx Park,
New York City.

April 20th 1904

Dear Dr. Kennedy:

We are just back from a trip to Miami
Fla. where we have had a good time at the Subtropical
Sanctuary with Prof. Rolfs. Dr. Boitard made a trip of
stop down the keys - and a flying visit to Havana
with Dr. Ham & Dr. Willspaugh - Dr. Ham has made
some beautiful collections of sea-weed and I
enjoyed making the acquaintance of several
typical genera of mosses - that I had studied
free dried material. It is a strange and interesting
country. Dr. Small is to go down there again soon &
Camp

as far South on the peninsula as he can get
I did not enjoy prowling around much alone
for fear of rattle snakes & scorpions. but I
did get into the leadenworks while Mr. Britton was
off missing. I am not a good sailor so
I prefer terra-prima. I was pleased to
learn that Mr. White's collection of bones was
acceptable to the N. E. Nat. Club.

I hope that Mrs. Kennedy is well and
that you have not endured this long & severe
winter with once degree of comfort.

Yours sincerely
E. S. Britton

Britton, Elizabeth G. 1904. "Britton, Elizabeth G. 20 Apr 1904." *George Golding Kennedy correspondence*
