PROVIDENCE, R. I., June 22 1897

Dear Dr. Kennedy:

Yours of 20th from
Willoughby at hand. Am glad
to hear you had such a fine time
in spite of the weather.

Have you ever found Schistostegia?
I see it is reported from "near Profile
House" and "Dixville Notch" N. H.

I expect to attend the Maine Bot.
Society meeting at Dover July 6-9.
Have been making out my report
and find I have to report 34
bryophytes previously unrecorded
for the state (i.e. to the best of my knowledge)

Am in hopes to visit Maine again
in Aug. for 2 weeks. These are
the only outings I anticipate

for the summer.

I enclose the list of Blanchard's
mosses. Also 2 from N.H.

which happen to be numbered along
with Blanchard's.

Rather hastily but sincerely

J F Collins
