

468 Hope Street,
Providence, R.I.
Apr. 26, 1911.

Dear Dr. Kennedy:-

I am filling out a blank application in connection ^{with} government work on the chestnut bark disease. I am filling out a more elaborate blank than usual, hoping that I may thereby improve matters for myself. There is one place where I have to give the names and addresses of five persons who have knowledge of my "character, experience, and ability". Are you willing that I should use your name as one of these?

I was very glad to see you at the American Academy meeting. It was a delightful affair, including the dinner in the evening. I hope you are enjoying the best of health. These last few pleasant days seem like real Spring.

Cordially,

J. Franklin Collins.
