

Camb - Mass - June 7-1886.

The Carex by York Pond is  
*C. digitalis* - rather young.

The Carex in the swamp on  
the right of the road as we  
were driving is *C. canescens*.

The Carex covering your land  
is *C. panicea* a good thing.

If you have a spare half  
hour, cant you get me  
about a dozen of these  
beauties near the house?  
Would there be any chance of  
there being left at the school?

I know Bailey would like  
some of them - If too much  
trouble, why, leave it. Had  
a most delightful time at  
yr. house, Sat. as I always  
have.  
Sincerely yrs. W.D.
