

Cambridge Mass.
July 6 - 1890

Dear Dr. Kennedy:

You are quite right
as to *Carex vestita* -
I am glad the ques-
tion came up in my
mind, as I shant
make the mistake again.
The old Manual says
C. vestita externally re-
sembles *C. lanuginosa*,
but I now see the
difference in the perigynia.
I never got *C. vestita*
so old and it lead me off.

I had a fine time yesterday as I always do. If you are at home, can't you wait for fruit of Galium verum? Remember fruit of Utricularia vulgaris and that Sagittaria.

We shall probably get off by the middle of the week.

I reached home yesterday at 9.15.

Ever
A. Deane
