

We are having quite cool weather here now. We did have some very hot days a short time ago.

I hear from Ned Rand at intervals, and I sent him your address lately. So he is evidently going to write you.

Mrs. Deane joins me in very much love to each and all. How I should like to see Edinburgh & North Berwick where my grandfather lived till he came over here.

Sincerely  
Nellie Deane

Dear Dr. Kennedy,

Again I am reminded that you are not only wandering pleasantly over the British Isles, but also thinking of your stay-at-home friends who, if not in Norfolk County, are at least very near it. "Shakespeare's Garden" came only a very few days ago and I have enjoyed it so much. It is a very pretty presentation of the floral side of the great poet's works. I wish, where it was possible, that the authoress could have inserted the

Scientific name that we might be  
absolutely sure what plant is  
referred to. But I suppose in  
many cases that would be im-  
possible - thank you so much.  
The envelope was stamped "Inverness,  
July 7" so you have been far  
north in Scotland, having such a  
good time - I long to hear  
again and learn just how you  
all are. Mildred, I hope, is just  
as well and strong as she could  
possibly desire, and I should like  
to hear that Mrs. Kennedy is  
at least able to climb mountains  
with the best of you -

Mr. Dean & I stayed in  
St. Albans till June 29 since  
which time we have been  
in Canada again. Here we

shall stay till September when we shall again  
run off somewhere -  
Mr. Purdie has had a rather long  
time lately having had an operation  
for epigastria hernia - He went to  
the Carney Hospital in South Boston  
and I visited him twice there -  
He is not now but is not at all strong.  
I wonder how you are getting on with your  
photography - He had weather in St. Albans  
prevented me from going over there to speak  
of & took some pictures at the big lot-  
farms and the men at work - You  
shall see them later -
