

Cambridge Mass.
July 20, 1908 -

Dear Dr. Kennedy,

It was very refreshing to get your card from that strange place in Canada among the Tibans and the Toles, I believe you told me. Give everybody my best love and tell me sometime Hilborn's relation to her 1000th part of an Island.

Your card came Saturday, the 18th, having been written on the 15th.

Mrs. Dean & I were in Shelburne, N.H., from July 2 to 14 visiting at the McMillans on their 1000 acre place. We had a very lovely time - of course it was hot, but the wood piazza and a fine Maxwell car were good antidotes to heat. The forest fires we were in the midst of at times and I will tell you about them when we meet.

They were awful and it makes me
weep to see our noble forest land
going to ruin through the lum-
ber companies & the forest fires.
Whole mountain sides are swept
bare, the soil burned and then
where is your moisture conserved
~~that~~ is the source of our streams?
Two houses burned down in Shelburne
village when we were up there.
Nothing but pools of water are
available in such a case-
I wonder there are so many
old wooden isolated country
houses.

Our visit to my sister in
Winchester is put off now
to my cousin's illness and
that is very indefinite.

Do write soon

Rand is still here
Forsell has at last sailed
for Labrador.

Walter Deane.

Deane, Walter. 1908. "Deane, Walter 20 Jul 1908." *George Golding Kennedy correspondence*
