—AT—

WINONA, MINNESOTA.

President's Office.

Winona, Minn., Dec. 18, 1896.

To Dr. Geo. G. Kennedy,  
The Pines, Blue Hill,  
Readville, Mass.

My dear Sir:

I have your favor of the 8<sup>th</sup> inst., with enclosure of that very fine *Seligeria calcarea*, for which please accept most cordial thanks. It is in such elegant condition as to fruit. I received it while ill with a touch of inflammation of bowels, so have not yet examined it critically. - My illness comes unfortunately after several other members of my family were ill, all of which has made a big hole in my spare home-time, which I use on mosses. The issue of my next fascicle of Minnesota Mosses will therefore be delayed somewhat. It will however contain a number of interesting, and a few exceedingly small species of mosses. It is not certain that I shall be able to get reprints of that description and plate.

Cordially yours,

John M. Holzing.

Holzinger, J. M. 1896. "Holzinger, John M. 18 Dec 1896." *George Golding Kennedy correspondence*
