Winona, Minn., Sept. 25, 1898.

My dear Doctor:

Well it is all over! The boy
same day before yesterday, Sept. 23, after
only a two hours' summons. Everything
went off beautifully - not a hitch, and
less fuss than in 99 out of 100 such cases!
The mother is almost ready to sit up! The
boy, 10 pounds if you please! - is as bright
as a boiled lobster! Judging from the
way he bends his energies to pulmonary activity,
he bids fair to turn out, in early youth, a boy
orator or boy singer - already he is a Helzinger.
Of course you will forgive my "lack of poise"!

From Montana I returned in the first
days of August, after 3 weeks of sojourn
around Lake MacDonald. I have not yet
found time to work out my finds,
except to delve in for a few hours at one point,
the lot from Sperry Glacier. The enclosed is one
of two good things: The other is an *Anchreaea*, of
which I have only a wee bit in all.

Cordially yours, John M. Helzinger.

I do wish I could have attended the A. S. A. meeting
recently held in Boston. Did you meet Mr. E. G. B. and Grout?
and Best? Was a most section formed? I would like to know
what was done in this matter.
H.
