

Winona, Minn., Dec 1, 1901.

My dear Sir: I have your note of inquiry. And I hasten to say that your packet of Seligeria came safely to hand, and has furnished some excellent additional data, which will be published in the Jan. 1902 Bryologist. I had not intended to leave you thus in the dark about this matter. And you would forgive me this oversight, I am sure, if you knew how very busy my school duties keep me these days!

I have a copy of the June 1901 Rhodora: the plate facing p. 150 has greatly interested me because I know you are in that group! I have picked out the second fellow from the right, with vasculum in hand: how nearly am I right?

Cordially yours, John M. Holzingen.
