

10, Perkins Hall, Cambridge

5 November, 1904

My dear Dr. Kennedy: -

At the two meetings of the Botanical Club which have passed I have not found the precise opportunity which I have desired to thank you personally for your generous share in making our summer's trip to Cape a profitable and delightful one. Without your kindness many of our most important and most interesting trips would have been impossible. The only regret I can have is that you were not with us yourself to see what a fascinating country the whole penin-

sula is. The pictures give a good idea of the scenery there and the specimens of the flora, but there is, of course, a great deal in the way of adventure and interesting experience which cannot be reproduced in either of these ways.

We were especially interested in the Douglaston River because of your connection with it, and it yielded us several good things. But the three most significant points which we visited (after I joined the party) were Carleton, Bonaventure River, and Pica and each of these would stand a great deal more work.

Again thanking you most heartily for your kindness, I remain,  
Sincerely yours,  
Arthur Stanley Pease.

Pease, Arthur Stanley. 1904. "Pease, Arthur S. 5 Nov 1904." *George Golding Kennedy correspondence*
