

RAVINE HOUSE,  
L. M. WATSON, PROPRIETOR,  
RANDOLPH, N. H.

Randolph, N. H., July 22 1897

My dear Doctor,

I received your letter tonight & I am very glad to hear from you & especially to hear you were so fortunate in the Tayloria. You must look at my specimen & see if I have both species. Had I suspected the importance of the find I would have taken pleasure in providing a half a barrel of host matter for the propagation of this rare moss. Do remember my experience in giving away the location of Tetraplodon & make your labels sufficiently indefinite to insure your station against destruction by greedy Gertrude. I suspected that your splash

more old. prove to be something else as Mr. Faxon showed me some *S. ampulacea* collected at Mt. Desert & it was very different, showing plainly the ampula.

You ought to have been at Mt. Desert with us. I had an elegant time botanically & Mr Rand & Mr Faxon were triumphs as usual. Among rarities which I find I collected, are *Potentilla Penn.*, *Carex fusca*, *C. etilis*, *C. adusta*, *C. Houghtonii*, *Diadanthus Deltoides*, *Juniperus Sabina v. procumbens*, *Carex Maritima*, *Stipa Macounii*, *Salix balsamifera v. minor*, *Funaria officinalis*, *Matricaria discoidea*, *Elymus mollis*, *Hippuris vulgaris*, *Glaux Maritima*, *Hordeum jubatum*, *Precinellia maritima*, *v. minor*, *Montia fontana*, also many other plants which I wanted but which are more common with us. We had a good deal of fog at first but our three last days were ideal days. One day was spent on the mountains from which one gets

the prettiest view I ever looked upon.  
There is so much water about it &  
there are so many mountains, islands  
& fjords about the island that it makes

Randolph, N. H.

189

a rare combination for a spectacular  
view. Another day spent at Great  
Cranberry Island showed us Mt. Desert  
from a point of vantage & that also  
was a panorama of wondrous beauty.  
The mountains are small but bold  
& from Cranberry Island, show a series  
of peaks & notches extending from  
East to West of exquisite contours  
& beautiful color. The spectacle is  
stamped on my mind as one of  
rare beauty & it touches a chord  
every time I think of it. Do let us  
have a day with Mr. Deane. I  
can run up to Whitefield from here  
on the Whitefield & Jefferson R.R. or

I can drive to the Mt. Pleasant  
house. Or you can drive here & Deane  
come by train. You can offer the  
best table but my mountains will  
beat yours.

Please give my best regards to  
Mrs. Kennedy & Miss Ingall. You  
do not say that Mildred is with you  
but if she is do not leave her out.

Sincerely Yours  
Emily F. Williams.

Williams, Emile Francis. 1897. "Williams, Emile F. 22 Jul 1897." *George Golding Kennedy correspondence*
