

Cleveland Dec. 25, 1904.

Dear Mr. Deane,

Are you still collecting plants?
I go out every Sunday in the
warm season to look for shells,
and often see good plants.
I have on hand now *Wollfia* sp.
and fringed *Pogonia pendula*.

If you will send me a list
of the things liable to occur
here and that you would like
I will watch for them. I am
at present watching carefully
for *Asclepiadaceae* for a friend
in Philadelphia who wants to
get as many specimens as

possible of that family; but
this place is too far North
to yield many.

Very respectfully,

John A. Allen
