

UNITED STATES DEPARTMENT OF AGRICULTURE,
BUREAU OF PLANT INDUSTRY.

TAXONOMIC AND RANGE INVESTIGATIONS.

Washington, D. C., October 11, 1911.

Mr. Walter Deane,
29 Brewster St.,
Cambridge, Mass.

Dear Sir:--

Your interesting letter of October 9 received. I shall be glad to examine the grasses you mention, returning those specified.

Prof. Hitchcock is in the tropics, collecting and studying the grasses of Panama, Costa Rica, Guatemala and so far as time permits visiting Honduras and Nicaragua. Among the fine collections already received from him are some not before found in North America. I have not been in the field this summer except for a short trip to Lake Drummond in the Dismal Swamp. The result was small so far as grasses were concerned, though I secured both our native bamboos in bloom, but as an outing it was most delightful.

Yours sincerely,

Agnes Chase

Assistant in Systematic Agrostology.

Chase, Agnes. 1911. "Chase, Agnes (née Merrill) Oct. 11, 1911." *Walter Deane correspondence*
