UNITED STATES DEPARTMENT OF AGRICULTURE,
DIVISION OF BOTANY,
WASHINGTON, D. C.

January 17, 1895.

Mr. Walter Deane,

9 Brewster Street, Cambridge,

Massachusetts.

Dear Sir:--

The first record of the presence of Lactuca scariola in this country seems to be a specimen in the Harvard Herbarium, collected at Cambridge in 1863. This is one of the most abundant of the recently introduced weeds in the region north of the Ohio River. I would like to obtain information concerning its distribution and character as a weed in Massachusetts. Will you kindly give me such data as you have that may be used in mapping its present distribution.

Yours truly,

L. H. Dewey.

Assistant Botanist.

Dewey, Lyster H. 1895. "Dewey, Lyster Hoxie Jan. 17, 1895." *Walter Deane correspondence*
