

New York Botanical Garden,

Bronx Park,
New York City.

EXPRESS ADDRESS,
BEDFORD PARK.
FREIGHT ADDRESS,
WILLIAMSBRIDGE.

March 23rd, 1900.

Mr Walter Deane

Cambridge Mass

Dear Mr Deane: You will recall that it has been ten years since the symposium on the geographical distribution of plants of N.Am. was given at Indianapolis, and that such advances have been made, that a similar discussion would be most profitable and interesting at this time.

The sectional committee of the A.A.A.S. has decided to arrange for such a discussion, and wishes you to undertake the treatment of the New England and northeastern flora. Your paper may go to any length you please or handle the subject in any manner, but a short resume that can be read in ten minutes should be prepared for presentation at the sessions. It is hoped that the full papers may be published together in one place, as were the last series. The meetings will be held in New York June 25th - 30th 1900.

Dr Small will take up the Southern flora, and it is my intention to ask Macoun to represent the Canadian area.

It is the earnest wish of all concerned that you participate in the discussion, and although we wish very much to have you present your paper in person, yet if attendance is impossible, I shall take great pleasure in reading your resume for you. Please let me have an early acceptance.

yours truly,

D. G. Mac Dougal
Secretary, Section G/A.A.A.S.

MacDougal, Daniel Trembly. 1900. "MacDougal, Daniel Trembly Mar. 23, 1900." *Walter Deane correspondence*
