

THE BIOLOGICAL SOCIETY OF WASHINGTON.

WASHINGTON, D. C., June 3, 1915.

Dear Mr. Deane: Your interesting letter about *Potamogeton* is much appreciated. I inquired about *P. furcillus* & *P. foliosus*, merely because I have found the 'gland' character hard to use - particularly with reference to some foliar winter buds. I feel sure pertain to one or the other of these species.

Under another cover I am sending a copy of the last publication on wild duck foods.

Sincerely yours,
W. E. Mearns.

McAtee, W. L. 1915. "McAtee, Waldo Lee Jun. 3, 1915." *Walter Deane correspondence*
