New Dorp, Staten Id. N.Y.

Nov. 5th, 1898.

Dear M. Davenport,

I received your letter of the 16th of October, and am glad that the matter is explained. I appealed to Dr. Kennedy, because you told me you had spoken to a friend, and I am glad to learn from Dr. Kennedy that he was that friend, as he is mine also. I hope you will try to forget so disagreeable an episode and remember that long ago you sent me some photographs from Smuggler's Notch. I have them still of the yellow birches and a view of the cliffs on Mt. Mansfield. and I want to have lantern slides made of them. May I have your consent to do this and also I want to ask you if you have any photographs of ferns? I am getting together all that I can find, for a Fern Symposium at the Torrey Botanical Club in March and should like to see any that you have, if you feel disposed to grant this favor, I shall esteem not only the favor, but the token of renewed friendship on your part,

yours very truly,

Elizabeth G. Britton.
