

New Haven, Connecticut. Nov. 11, 1874

Geo. L. Savenport, Esq.

Dear Sir,

I have your letter
of the 9th, with ferns endorsed.

Nobody knows anything
about *Pol. Californicum*, nor
can know positively without
seeing Kaulfuss's original
specimens. Hooker guessed
that it was the same as his
intermedium, & I guessed
it was not - Your plant will
do well enough for intermedium.

I do not know who can
send you the ferns you
desire - Advertise

for them in the California
Horticulturist.

Aspid. Californicum is
doubtful.

I have no *Asplenium*
dentatum from the U.S. & when
you get it I hope you
will send me some.

I saw it in the Torrey
herbarium.

Aspid. Ludovicicum
I have never seen, & know
nothing about it.

Sorry to be so unsatisfactory -

Yours truly

J. Eaton.

Eaton, Daniel Cady. 1874. "Eaton, Daniel C. Nov. 11, 1874." *George Edward Davenport correspondence*
